

## ***Pelletizers***

TOMCO<sub>2</sub> dry ice pelletizers allow you to manufacture dry ice pellets in your own facility. Producing pellets on site is efficient and convenient. We have nine different models to meet your specific needs. Various size extrusion dies are available to produce pellets best suited to your applications.

Our high-pressure HP-Pelletizers series allows you to manufacture your own high-density pellets for your CO<sub>2</sub> cleaning needs. The DE-Series pelletizers offer you on-site flexibility for producing dry ice pellets for cooling your products and applications. Producing your own pellets will reduce sublimation loss.

### ***HP-200 / HP-100 Pelletizer***

Your efficient and economical alternative for smaller pellet requirements.

#### **HP-200 Features:**

- Production rate: 200 lbs/hr (91 kg/hr)
- Dual cylinders
- Pellet size: Standard 2.9 mm diameter and random lengths
- Drive media: Hydraulic with 7.5 H.P.
- Electric characteristics: 230/460 Volt, 60 Hz, 3 Phase operation
- Color touch screen display
- Hydraulic oil capacity: 40 gallons (151 ltr)
- Overall Dimensions (L x W x H): 67" x 52" x 64" (170 cm x 132 cm x 163 cm)
- Weight: 1400 lbs (635 kg)

#### **HP-100 Features:**

- Production rate: 100 lbs/hr (45 kg/hr)
- Single cylinder
- Pellet size: Standard 2.9 mm diameter and random lengths
- Drive media: Hydraulic with 7.5 H.P.
- Electric characteristics: 230/460 Volt, 60 Hz, 3 Phase
- Color touch screen display
- Hydraulic oil capacity: 40 gallons (151 ltr)
- Overall Dimensions (L x W x H): 67" x 43" x 63" (170 cm x 109 cm x 160 cm)
- Approximate Shipping Weight: 1400 lbs (635 kg)
